How This Menu Works:

This menu is changing and evolving with our new beverage program! We are trying new things, seeing what you love, and making changes as needed. Sometimes we won't have things on this list, that means it was either more popular than expected and we've got more on the way asap, or it means we are making room for things you'll love even more.

SAKE

Sake is complex and new to lots of people in Scotland. For ease, we've simplified and titled these sakes by their flavour profile. Sake is traditionally served in its own vessel and poured into a glass on the side. The sakes below are all served cold. Just tell your server the title of the sake you'd like and if you want a standard serving (stan.) or a full bottle (btl.) to share.
